# HOW TO DRAW FABIO

1

Draw a small egg shape for Fabio's head

And a larger circle for his body
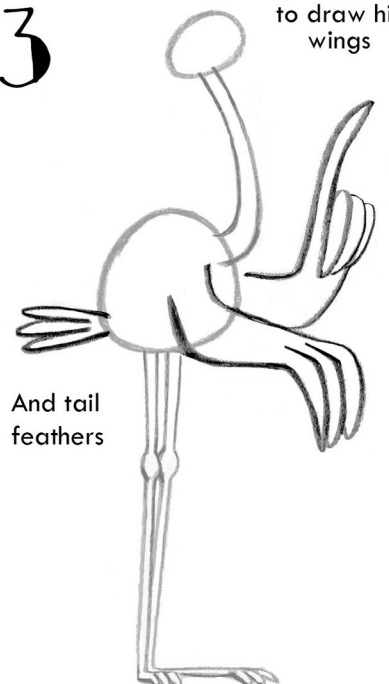

2

Next add a long bendy neck

And skinny legs with knobbly knees

Don't forget Fabio's feet!

3

Now we need to draw his wings

And tail feathers

4

Next add Fabio's beady eye and beak (which has a black tip)
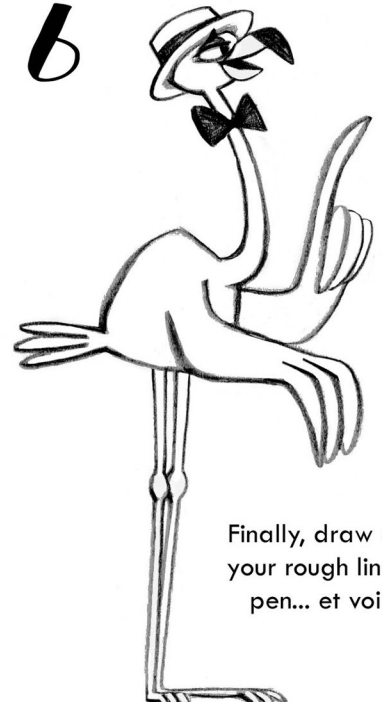

5

Now it's time to get dressed...

Draw Fabio's hat and bow tie

6

Finally, draw over your rough lines in pen... et voila!
